Clothes he Wears**

- ¶ The prosperous looking man is the man who gets the attention, is the man who will succeed when the man with even more brains, but not so good clothes, will fail.
- ¶ You owe it to yourself, to your friends, to wear just as good clothes as you can afford. And when you buy your clothes here, you can afford more clothes and better clothes, because you can buy them here for less money than in many other places.
- ¶ It is not our guarantee that makes clothes good, but it's the quality of the clothes that makes the guarantee possible.

Introductory

We present the sixth edition of Henderson's Brandon City Directory. The canvass of the City, necessary to the publication of this work, clearly indicates that the growth and development which we have had to report in previous issues is of a permanent character, and we have endeavored to faithfully chronicle this progress, for it is generally recognized that there is no better means of spreading information concerning a city, or making known its commercial and social advantages than through the medium of a thorough up-to-date City Directory. Such a work we have endeavored to make this present issue.

Population of Brandon 18078

It is customary for Directory Publishers to give an estimate of the population of a city based upon the number of names the Directory contains. The 1914 Directory has 6,574 individual names not including names of firms and corporations, which we multiply by 2.75, and which allows for women, children and those names not taken in the enumeration.

In adopting the multiple stated there is the same possibility that the publishers have been as much conservative as liberal.

The percentage of increase however must be definite. The publishers wish it to be strictly understood that their figures are to be regarded only as an estimate. **They are not a Census.**

In submitting the result of our work, as shown in this volume, the publishers desire to thank their subscribers and the public generally, for the unfailing courtesy shown its representative.

Yours truly,

HENDERSON DIRECTORIES LIMITED.

BRANDON FIRE DEPARTMENT

Headquarters: Princess Avenue cor. Seventh Street

Chief—John Melhuish

Secretary—A. H. Elborne

The department consists of twenty-one permanent (fully paid) firemen.

The equipment consists of one steamer, two chemicals, two hose wagons, one hose reel, one aerial ladder, one hook and ladder wagon and 9 horses, also one 80 horsepower combination motor truck.

Chief's motor car: No. 2 Fire Station, 11th St and McTavish Ave.

There are 155 fire hydrants, distributed throughout the city. The fire pressure from the waterworks pumping station is 140 pounds with a total pump capacity of 3½ million gallons in 24 hours. It is a direct pumping system, there being no reservoir or stand pipe. The electric fire alarm system has 36 boxes.

CITY WATERWORKS

The waterworks pumping station is situated at the corner of 26th Street and McDonald Avenue and north of the C.P.R. track. It is 1¼ miles west from the City Hall.

Superintendent and Chief Engineer—A. W. Shaw; assistant engineers, John W. Anderson, Thomas D. Berry, D. Taylor.

The supply is taken from the Assiniboine River with a 40-inch intake to the pumping station which is 1,000 feet south of the river. The system is what is known as direct pumping, there being no reservoir or stand pipe. The plant consists of one two million gallon D'Auria high duty pump, two 1,200,000 gallon Worthington pumps, eight 500,000 gallon pressure filters, operated by four 75 horse power boilers and one 1,200,000 steam turbine centrifugal pump.

The engine room is 36x44 feet, two filter rooms, one 36x44 feet and one 33x60 feet, and the boiler room 30x44 feet. Addition to boiler room 46x82 feet, 300 horsepower boilers. There are 1,800 domestic services, of which 500 are on meter, and 130 fire hydrants. A domestic pressure is maintained at 85 pounds, while for fire purposes the pressure is raised to 140 pounds at the station. The total capacity of the pumping plant is 3½ million gallons for 24 hours.

PUBLIC WORKS AND IMPROVEMENTS

The City has 31½ miles of water mains, 26½ miles of sewers, 49 miles of granolithic sidewalks, 23 miles of graded streets, 15 miles of boulevards and 155 fire hydrants. Permanent steel and concrete bridges are constructed over the river at First and Eighteenth Streets.

Brandon, lat. 49.51, lon. 99.57; elevation at City Hall 1255 ft. above mean sea level.

SYSTEM OF NUMBERING HOUSES

The system of house numbering adopted by the City of Brandon is the Philadelphia or Decimal system. By this system an even hundred numbers are allotted to each block and the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on the street or avenue.

On avenues which run east and west a number is allotted to every twelve feet, and on streets which run north and south a number is allotted to every fifteen feet.

Odd numbers are located on the east and north sides, and even numbers on the south and west sides.

The affix "east" is used to indicate avenues that number eastward from First Street and the affix "north" is used to indicate streets that number northward from Pacific Avenue.

Pacific Avenue is taken as the basis for all streets running south starting at number 1 and going southward 100 to the block to the southern limits of the City.

Assiniboine Avenue is the basis for all streets running northward starting at number 1 going northward 100 to block to the northern limits of the City.

First Street is the basis and dividing line for all avenues which run east and west. Starting at 100 and going westward 100 to the block to the western limits of the City, and again starting at number 1 and going eastward 100 to the block to the eastern limits of the City.

Rosser Avenue and all avenues running westward from First Street are intersected as follows:

Number.	Number.
100 First Street	600 Sixth Street
200 Second Street	700 Seventh Street
300 Third Street	800 Eighth Street
400 Fourth Street	900 Ninth Street

Rosser Avenue East and all avenues running eastward from First Street are intersected as follows:

Number.	Number.
1 First Street	500 Rideau Street
100 Dennis Street	600 Franklin Street
200 Russell Street	700 Percy Street
300 Frederick Street	800 Douglas Street
400 Park Street	900 Tenth Street
1000 Eleventh Street and so on to Seventeenth Street and eastern boundary of the City.

1500 Wellington Avenue, the southern boundary of the City.	1400 Spadina Avenue

TRANSPORTATION FACILITIES

The City is connected by four great trunk lines, viz., the Canadian Pacific, Canadian Northern, Great Northern and the Grand Trunk Pacific Railways. The construction of the Hudson's Bay Railway will assist in making Brandon the distributing point for all the produce of western and southern Manitoba together with the eastern portion of Saskatchewan for the world's nearest market.

Brandon is the second divisional point on the C.P.R. system west of the Manitoba boundary in the very heart of the Province.

The Canadian Northern Railway Company's new main line from Port Arthur to Regina gives Brandon a fast through passenger service. This Company realizes that Brandon is one of its most important divisions.

The Great Northern terminal from St. Paul is located in the business centre of the City. Its handsome passenger depot facing and extending across 12th Street close to Rosser Avenue, substantial brick freight sheds and offices have been erected by the Company adjacent to its passenger depot. The Company finds it necessary to make still further provision for the increasing traffic. An extension of this company's lines is to spread its system out to all points from Brandon.

The Grand Trunk Pacific's connecting line gives Brandon a fast service to Edmonton and intervening points, as well as providing the City with closer freight rates.

BRANDON EXPERIMENTAL FARM

The Experimental Farm is adjacent to the City on the north-west, the farm buildings being about 2½ miles from the business centre. The farm is 652 acres in extent, four hundred of which are in the valley of the Assiniboine River and the balance on the sloping sides and upland. There is thus a variety of soil and exposure.

The farm was established in 1888 by the government of Canada for the purpose of testing varieties of grain, fodder, crops, roots, vegetables, fruits, trees, etc., and of testing methods of handling the land best suited for Manitoba conditions. Feeding experiments are also conducted with cattle, swine, sheep, etc.

The farm is open for the general public to visit. About 10,000 on an average visit the farm annually, principally during midsummer when the crops are looking the best.

The Objects of the Association

- FIRST:** The improvement of directories by the interchange of ideas and the exchange of experienced employees.
- SECOND:** The protection of the public against fraudulent advertising schemes operating under the name of directories, and the maintenance of a high standard of excellence and accuracy of information in the publication of directories; thereby maintaining and promoting the confidence of the advertising public in reliable directories; also the securing of permanent employment for competent, industrious canvassers and honest compilers.
- THIRD:** The advancement of the interests of all who may become members hereof.
- FOURTH:** The promotion generally of social, as well as business intercourse among its members.
